Week 1

(Days 1-3)
- Tour of facility and introduction to Oak Tree staff
- Introduction to sites policies/procedures and overview of clinical services offered at Oak Tree Developmental Center
- Participate in any required training and orientation for Oak Tree (i.e. documentation, evaluation process, caseload/client population/goal setting, safety, and equipment use)
- Review site expectations for student and discuss student's long term goals for fieldwork experience
- Review common therapy methods used at Oak Tree (i.e. ABA and DIR)
- Review evaluation tools commonly used at Oak Tree (i.e. Sensory Profile Checklist, VMI, BOT-2, and the Peabody)
- Participate in group sessions and one on one sessions
- Review therapist documentation for treatment sessions

(Days 4-5)
- Discuss possible ideas for student project
- Observe early intervention in two settings (home based and clinic based) and discuss the significance of practicing in the natural setting with fieldwork educator
- Receive first client from fieldwork educator's caseload to prepare and carry out treatment plan independently
- Perform documentation on session with feedback from fieldwork educator
- Participate in weekly discussion/feedback session with fieldwork educator (see attached form for guide)

Week 2

### Week 3

<table>
<thead>
<tr>
<th>AOTA FWPE Item</th>
<th>Site-Specific Objectives</th>
</tr>
</thead>
</table>
| **Basic Tenants** | - Communicate with other disciplines (i.e. PT and SLP) to better understand OT's role on the team  
- Clearly articulate the role of OT to families and other team members when applicable |
| **Evaluation and Screening** | - Observe OT evaluation process with at least one client (if applicable)  
- Student will assess client factors & contexts that support or hinder treatment goals for clients and discuss with fieldwork educator |
| **Intervention** | - Prepare and carry out treatment plans for 3 clients independently, including documentation for sessions  
- Provide report on clients' response to treatment sessions  
- Provide a current research article supporting one treatment approach chosen to implement with clients and explain supporting evidence for practice to fieldwork educator  
- Continue daily participation in all of Fieldwork Educator's clinical treatment sessions (individual and group) |
| **Communication** | - Provide education to 2 families at the end of therapy session  
- Complete documentation for treatment sessions independently |
| **Management of Occupational Therapy Services** | - Attend any departmental meetings if applicable to learn more about the organizational goals of Oak Tree Developmental Center  
- If site has Certified Occupational Therapy Assistants (COTAs); students will continue to observe interactions between the COTA and OTR in order to get a better understanding of the relationship |
| **Professional Behaviors** | - Collaborate with other team members (i.e. SLP or PT) and co-lead at least one group therapy session with another discipline  
- Collaborate with Fieldwork Educator to participate in weekly discussion/feedback sessions (see attached form) |

### Week 4

<table>
<thead>
<tr>
<th>AOTA FWPE Item</th>
<th>Site-Specific Objectives</th>
</tr>
</thead>
</table>
| **Basic Tenants** | - Daily communication with other disciplines (i.e. PT & SLP) in order to understand their roles and the OT's role on the team  
- Clearly articulate the role of OT to families and other team members when applicable |
| **Evaluation and Screening** | - Evaluate at least one client independently (if applicable) and complete appropriate documentation  
- Student will assess client factors & contexts that support or hinder treatment goals for clients and discuss with fieldwork educator |
| **Intervention** | - Prepare and carry out treatment plans for 4 clients independently, including documentation for sessions  
- Provide report on clients' response to treatment sessions  
- Provide a current research article supporting two treatment approaches chosen to implement with clients and explain supporting evidence for practice to fieldwork educator  
- Continue daily participation in all of Fieldwork Educator's clinical treatment sessions (individual and group) |
| **Communication** | - Provide education to 3 families at the end of therapy session  
- Complete documentation for treatment sessions independently (see above) |
| Management of Occupational Therapy Services | • Attend any departmental meetings if applicable to learn more about the organizational goals of Oak Tree Developmental Center  
• If site has Certified Occupational Therapy Assistants (COTAs); students will collaborate with the COTA daily and demonstrate awareness of an appropriate supervisory relationship between COTA and OTR, including knowledge of the roles and responsibilities of COTA |
| Professional Behaviors | • Collaborate with other team members (i.e. SLP or PT) and co-lead at least one group therapy session with another discipline  
• Collaborate with Fieldwork Educator to participate in weekly discussion/feedback sessions (see attached form) |

### Week 5

<table>

<th>Site-Specific Objectives</th>
</tr>
</thead>
</table>
| Basic Tenants  | • Daily communication with other disciplines (i.e. PT & SLP)  
• Clearly articulate the role of OT to families and other team members when applicable |
| Evaluation and Screening | • Evaluate at least one client independently (if applicable) and complete appropriate documentation  
• Student will assess client factors & contexts that support or hinder treatment goals for clients and discuss with fieldwork educator |
| Intervention  | • Prepare and carry out treatment plans for 5-6 clients independently, including documentation for sessions  
• Provide report on clients’ response to treatment sessions  
• Provide a current research article supporting two treatment approaches chosen to implement with clients and explain supporting evidence for practice to fieldwork educator  
• Continue daily participation in all of Fieldwork Educator’s clinical treatment sessions (individual and group) |
| Communication | • Provide education to 3-4 families at the end of therapy session  
• Complete documentation for treatment sessions independently (see above) |
| Management of Occupational Therapy Services | • Attend any departmental meetings if applicable to learn more about the organizational goals of Oak Tree Developmental Center  
• If site has Certified Occupational Therapy Assistants (COTAs); students will collaborate with the COTA daily and demonstrate awareness of an appropriate supervisory relationship between COTA and OTR, including knowledge of the roles and responsibilities of COTA  
• Student Project Check In: Student will provide fieldwork educator with rough draft(outline of project) |
| Professional Behaviors | • Collaborate with other team members (i.e. SLP or PT) and co-lead at least one group therapy session with another discipline  
• Collaborate with Fieldwork Educator to participate in weekly discussion/feedback sessions (see attached form) |

### Week 6

<table>
<thead>
<tr>
<th>AOTA FWPE Item</th>
<th>Site-Specific Objectives</th>

</thead>
</table>
| Basic Tenants  | • Daily communication with other disciplines (i.e. PT & SLP)  
• Clearly articulate the role of OT to families and other team members when applicable |
| Evaluation and Screening | • Evaluate any clients independently (if applicable) and complete appropriate documentation  
• Student will assess client factors & contexts that support or hinder treatment goals for clients and discuss with fieldwork educator |
### Intervention
- Prepare and carry out treatment plans for *full OT caseload* independently, including documentation for sessions
- Provide report on clients’ response to treatment sessions
- Provide a current research article supporting *three* treatment approaches chosen to implement with clients and explain supporting evidence for practice to fieldwork educator

### Communication
- Provide education to all families at the end of therapy sessions with fieldwork educator as an observer
- Complete documentation for treatment sessions independently (see above)

### Management of Occupational Therapy Services
- Attend any departmental meetings if applicable to learn more about the organizational goals of Oak Tree Developmental Center
- If site has Certified Occupational Therapy Assistants (COTAs); students will collaborate with the COTA daily and demonstrate awareness of an appropriate supervisory relationship between COTA and OTR, including knowledge of the roles and responsibilities of COTA

### Professional Behaviors
- Collaborate with other team members (i.e. SLP or PT) and co-lead any group therapy sessions with other disciplines
- Collaborate with Fieldwork Educator to participate in weekly discussion/feedback sessions (see attached form)
- Complete mid-term evaluation with fieldwork educator

AOTA grants permission to photocopy the Fieldwork Performance Evaluation for the Occupational Therapy Student for training purposes only. Training purposes encompass using the FWPE forms in student notebooks and training manuals for clinical fieldwork sites, in training sessions for practitioners on the proper use and scoring of the forms, and for students to complete a self-analysis during their fieldwork training. Permission to use the forms must be submitted to copyright@aota.org
This evaluation is a revision of the 1987 American Occupational Therapy Association, Inc. Fieldwork Evaluation Form for the Occupational Therapist and was produced by a committee of the Commission on Education.

PURPOSE

The primary purpose of the Fieldwork Performance Evaluation for the Occupational Therapy Student is to measure entry-level competence of the occupational therapy student. The evaluation is designed to differentiate the competent student from the incompetent student and is not designed to differentiate levels above entry level competence. For further clarification on entry-level competency refer to the Standards of Practice for Occupational Therapy.

The evaluation is designed to measure the performance of the occupational therapy process and was not designed to measure the specific occupational therapy tasks in isolation. This evaluation reflects the 1998 Accreditation Council for Occupational Therapy Education Standards and the National Board for Certification in Occupational Therapy, Inc. Practice Analysis results. In addition, this evaluation allows students to evaluate their own strengths and challenges in relation to their performance as an occupational therapist.

USE OF THE FIELDWORK PERFORMANCE EVALUATION FOR THE OCCUPATIONAL THERAPY STUDENT

The Fieldwork Performance Evaluation is intended to provide the student with an accurate assessment of his/her competence for entry-level practice. Both the student and fieldwork educator should recognize that growth occurs over time. The midterm and final evaluation scores will reflect development of student competency and growth. In order to effectively use this evaluation to assess student competence, site-specific objectives need to be developed. Utilize this evaluation as a framework to assist in ensuring that all key performance areas are reflected in the site-specific objectives.

Using this evaluation at midterm and final, it is suggested that the student complete a self-evaluation of his/her own performance. During the midterm review process, the student and fieldwork educator should collaboratively develop a plan, which would enable the student to achieve entry-level competence by the end of the fieldwork experience. This plan should include specific objectives and enabling activities to be used by the student and fieldwork educator in order to achieve the desired competence.

The Fieldwork Educator must contact the Academic Fieldwork Coordinator when: (1) a student exhibits unsatisfactory behavior in a substantial number of tasks or (2) a student's potential for achieving entry-level competence by the end of the affiliation is in question.

DIRECTIONS FOR RATING STUDENT PERFORMANCE

• There are 42 performance items.
• Every item must be scored, using the one to four point rating scale (see below).
• The rating scales should be carefully studied prior to using this evaluation. Definitions of the scales are given at the top of each page.
• Circle the number that corresponds to the description that best describes the student's performance.
• The ratings for the Ethics and Safety items must be scored at 3 or above on the final evaluation for the student to pass the fieldwork experience. If the ratings are below 3, continue to complete the Fieldwork Performance Evaluation to provide feedback to the student on her/his performance.

OVERALL MIDTERM SCORE

Satisfactory Performance .......... 90 and above
Unsatisfactory Performance .......... 89 and below

OVERALL FINAL SCORE

Pass ....................................... 122 points and above
No Pass .................................. 121 points and below

RATING SCALE FOR STUDENT PERFORMANCE

4 — Exceeds Standards: Performance is highly skilled and self-initiated. This rating is rarely given and would represent the top 5% of all the students you have supervised.

3 — Meets Standards: Performance is consistent with entry-level practice. This rating is infrequently given at midterm and is a strong rating at final.

2 — Needs improvement: Performance is progressing but still needs improvement for entry-level practice. This is a realistic rating of performance at midterm, and some ratings of 2 may be reasonable at the final.

1 — Unsatisfactory: Performance is below standards and requires development for entry-level practice. This rating is given when there is a concern about performance.
RATING SCALE FOR STUDENT PERFORMANCE

4 — **Exceeds Standards:** Performance is highly skilled and self-initiated. This rating is rarely given and would represent the top 5% of all the students you have supervised.

3 — **Meets Standards:** Performance is consistent with entry-level practice. This rating is infrequently given at midterm and is a strong rating at final.

2 — **Needs improvement:** Performance is progressing but still needs improvement for entry-level practice. This is a realistic rating of performance at midterm, and some ratings of 2 may be reasonable at the final.

1 — **Unsatisfactory:** Performance is below standards and requires development for entry-level practice. This rating is given when there is a concern about performance.

I. FUNDAMENTALS OF PRACTICE:

All items in this area must be scored at a #3 or above on the final evaluation in order to pass fieldwork.

1. **Adheres to ethics:** Adheres consistently to the American Occupational Therapy Association Code of Ethics and site’s policies and procedures including when relevant, those related to human subject research.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

2. **Adheres to safety regulations:** Adheres consistently to safety regulations. Anticipates potentially hazardous situations and takes steps to prevent accidents.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

3. **Uses judgment in safety:** Uses sound judgment in regard to safety of self and others during all fieldwork-related activities.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

Comments on strengths and areas for improvement:

• Midterm

• Final

II. BASIC TENETS:

4. Clearly and confidently articulates the values and beliefs of the occupational therapy profession to clients, families, significant others, colleagues, service providers, and the public.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

5. Clearly, confidently, and accurately articulates the value of occupation as a method and desired outcome of occupational therapy to clients, families, significant others, colleagues, service providers, and the public.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

6. Clearly, confidently, and accurately communicates the roles of the occupational therapist and occupational therapy assistant to clients, families, significant others, colleagues, service providers, and the public.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

7. **Collaborates with** client, family, and significant others throughout the occupational therapy process.
   - Midterm: 1 2 3 4
   - Final: 1 2 3 4

Comments on strengths and areas for improvement:

• Midterm

• Final
RATING SCALE FOR STUDENT PERFORMANCE

4 — Exceeds Standards: Performance is highly skilled and self-initiated. This rating is rarely given and would represent the top 5% of all the students you have supervised.

3 — Meets Standards: Performance is consistent with entry-level practice. This rating is infrequently given at midterm and is a strong rating at final.

2 — Needs Improvement: Performance is progressing but still needs improvement for entry-level practice. This rating is given at midterm, and some ratings of 2 may be reasonable at the final.

1 — Unsatisfactory: Performance is below standards and requires development for entry-level practice. This rating is given when there is a concern about performance.

III. EVALUATION AND SCREENING:

8. Articulates a clear and logical rationale for the evaluation process.
   Midterm 1 2 3 4
   Final 1 2 3 4

9. Selects relevant screening and assessment methods while considering such factors as client’s priorities, context(s), theories, and evidence-based practice.
   Midterm 1 2 3 4
   Final 1 2 3 4

10. Determines client’s occupational profile and performance through appropriate assessment methods.
    Midterm 1 2 3 4
    Final 1 2 3 4

11. Assesses client factors and context(s) that support or hinder occupational performance.
    Midterm 1 2 3 4
    Final 1 2 3 4

12. Obtains sufficient and necessary information from relevant resources such as client, families, significant others, service providers, and records prior to and during the evaluation process.
    Midterm 1 2 3 4
    Final 1 2 3 4

13. Administers assessments in a uniform manner to ensure findings are valid and reliable.
    Midterm 1 2 3 4
    Final 1 2 3 4

14. Adjusts/modifies the assessment procedures based on client’s needs, behaviors, and culture.
    Midterm 1 2 3 4
    Final 1 2 3 4

15. Interprets evaluation results to determine client’s occupational performance strengths and challenges.
    Midterm 1 2 3 4
    Final 1 2 3 4

16. Establishes an accurate and appropriate plan based on the evaluation results, through integrating multiple factors such as client’s priorities, context(s), theories, and evidence-based practice.
    Midterm 1 2 3 4
    Final 1 2 3 4

17. Documents the results of the evaluation process that demonstrates objective measurement of client’s occupational performance.
    Midterm 1 2 3 4
    Final 1 2 3 4

Comments on strengths and areas for improvement:

• Midterm

• Final

IV. INTERVENTION:

18. Articulates a clear and logical rationale for the intervention process.
    Midterm 1 2 3 4
    Final 1 2 3 4

19. Utilizes evidence from published research and relevant resources to make informed intervention decisions.
    Midterm 1 2 3 4
    Final 1 2 3 4
20. **Chooses occupations** that motivate and challenge clients.

RATING SCALE FOR STUDENT PERFORMANCE

4 — Exceeds Standards: Performance is highly skilled and self-initiated. This rating is rarely given and would represent the top 5% of all the students you have supervised.

3 — Meets Standards: Performance is consistent with entry-level practice. This rating is infrequently given at midterm and is a strong rating at final.

2 — Needs improvement: Performance is progressing but still needs improvement for entry-level practice. This is a realistic rating of performance at midterm, and some ratings of 2 may be reasonable at the final.

1 — Unsatisfactory: Performance is below standards and requires development for entry-level practice. This rating is given when there is a concern about performance.

VI. COMMUNICATION:

32. Clearly and effectively communicates verbally and nonverbally with clients, families, significant others, colleagues, service providers, and the public.

   Midterm 1 2 3 4
   Final 1 2 3 4

33. Produces clear and accurate documentation according to site requirements.

   Midterm 1 2 3 4
   Final 1 2 3 4

34. All written communication is legible, using proper spelling, punctuation, and grammar.

   Midterm 1 2 3 4
   Final 1 2 3 4

35. Uses language appropriate to the recipient of the information, including but not limited to funding agencies and regulatory agencies.

   Midterm 1 2 3 4
   Final 1 2 3 4

Comments on strengths and areas for improvement:

• Midterm

• Final

VI. PROFESSIONAL BEHAVIORS:

36. Collaborates with supervisor(s) to maximize the learning experience.

   Midterm 1 2 3 4
   Final 1 2 3 4

37. Takes responsibility for attaining professional competence by seeking out learning opportunities and interactions with supervisor(s) and others.

   Midterm 1 2 3 4
   Final 1 2 3 4

38. Responds constructively to feedback.

   Midterm 1 2 3 4
   Final 1 2 3 4

39. Demonstrates consistent work behaviors including initiative, preparedness, dependability, and work site maintenance.

   Midterm 1 2 3 4
   Final 1 2 3 4

40. Demonstrates effective time management.

   Midterm 1 2 3 4
   Final 1 2 3 4

41. Demonstrates positive interpersonal skills including but not limited to cooperation, flexibility, tact, and empathy.

   Midterm 1 2 3 4
   Final 1 2 3 4

42. Demonstrates respect for diversity factors of others including but not limited to socio-cultural, socioeconomic, spiritual, and lifestyle choices.

   Midterm 1 2 3 4
   Final 1 2 3 4

Comments on strengths and areas for improvement:

• Midterm

- No Pass ....................................... 121 points and below
REFERENCES

GLOSSARY

Client Factors: Those factors that reside within the client and that may affect performance in areas of occupation. Client factors include body functions and body structures
• body functions (a client factor, including physical, cognitive, psychosocial aspects)—the physiological function of body systems (including psychological functions) (WHO, 2001 p.10)
• body structures—anatomical parts of the body such as organs, limbs and their components that support body function (WHO 2001, p.10)

Code of Ethics: Refer to www.aota.org/general/coe.asp

Collaborate: To work together with a mutual sharing of thoughts and ideas (ACOTE Glossary)

Competency: Adequate skills and abilities to practice as an entry-level occupational therapist or occupational therapy assistant

Context: Refers to a variety of interrelated conditions within and surrounding the client that influence performance. Contexts include cultural, physical, social, personal, spiritual, temporal and virtual. (Occupational therapy practice framework: Domain and process. American Journal of Occupational Therapy, 56, 606–639)

Efficacy: Having the desired influence or outcome (from Neistadt and Crepeau, eds. Willard & Spackman's Occupational Therapy, 9th edition, 1998)

Evidence-based Practice: "Conscientious, explicit and judicious use of current best evidence in making decisions about the care of individual patients. The practice of evidence-based [health care] means integrating individual clinical expertise with the best available external clinical evidence from systematic research." (Sackett and colleagues, Evidence-based medicine: How to practice and teach EBM, 1997, p. 2) (From the Mary Law article "Evidence-Based Practice: What Can It Mean for ME?", www.aota.org)

Occupation: Groups of activities and tasks of everyday life, named, organized, and given value and meaning by individuals and a culture; occupation is everything people do to occupy themselves, including looking after themselves (self-care), enjoying life (leisure), and contributing to the social and economic fabric of their communities (productivity); the domain of concern and the therapeutic medium of occupational therapy. (Townsend, ed., 1997, Enabling Occupation: An Occupational Therapy Perspective, p.181)

Occupational Performance: The result of a dynamic, interwoven relationship between persons, environment, and occupation over a person's lifespan; the ability to choose, organize, and satisfactorily perform meaningful occupations that are culturally defined and age appropriate for looking after oneself, enjoying life, and contributing to the social and economic fabric of a community. (Townsend, ed., 1997, Enabling Occupation: An Occupational Therapy Perspective, p.181)

Occupational Profile: A profile that describes the client's occupational history, patterns of daily living, interests, values and needs. (Occupational therapy practice framework: Domain and process. American Journal of Occupational Therapy, 56, 606–639)

Spiritual: (a context) The fundamental orientation of a person's life; that which inspires and motivates that individual. (Occupational therapy practice framework: Domain and process. American Journal of Occupational Therapy, 56, 606–639)

Theory: "An organized way of thinking about given phenomena. In occupational therapy the phenomenon of concern is occupational endeavor. Theory attempts to (1) define and explain the relationships between concepts or ideas related to the phenomenon of interest, (2) explain how these relationships can predict behavior or events, and (3) suggest ways that the phenomenon can be changed or controlled. Occupational therapy theory is concerned with four major concepts related to occupational endeavor: person, environment, health, and occupation." (Neistadt and Crepeau, eds., Willard & Spackman's Occupational Therapy, 9th ed., 1998, p. 521)

SUMMARY COMMENTS:
(ADDRESSES STUDENT'S CLINICAL COMPETENCE)
Fieldwork Performance Evaluation  
For The Occupational Therapy Assistant Student

This evaluation is a revision of the 1983 American Occupational Therapy Association, Inc. Fieldwork Evaluation Form for the Occupational Therapy Assistant and was produced by a committee of the Commission on Education.

**PURPOSE**

The primary purpose of the Fieldwork Performance Evaluation for the Occupational Therapy Assistant Student is to measure entry-level competence of the occupational therapy assistant student. The evaluation is designed to differentiate the competent student from the incompetent student and is not designed to differentiate levels above entry level competence. For further clarification on entry-level competency refer to the Standards of Practice for Occupational Therapy (1).

The evaluation is designed to measure the performance of the occupational therapy process and was not designed to measure the specific occupational therapy tasks in isolation. This evaluation reflects the occupational therapy process and was not designed to measure the specific standards (2) and the National Board for Certification in Occupational Therapy, Inc. Practice Analysis results (3). In addition, this evaluation allows students to evaluate their own strengths and challenges in relation to their performance as an occupational therapy assistant.

**USE OF THE FIELDWORK PERFORMANCE EVALUATION FOR THE OCCUPATIONAL THERAPY STUDENT**

The Fieldwork Performance Evaluation is intended to provide the student with an accurate assessment of his/her competence for entry-level practice. Both the student and fieldwork educator should recognize that growth occurs over time. The midterm and final evaluation scores will reflect development of student competency and growth. In order to effectively use this evaluation to assess student competence, site-specific objectives need to be developed. Utilize this evaluation as a framework to assist in ensuring that all key performance areas are reflected in the site-specific objectives.

Using this evaluation at midterm and final, it is suggested that the student complete a self-evaluation of his/her own performance. During the midterm review process, the student and fieldwork educator should collaboratively develop a plan which would enable the student to achieve entry-level competence by the end of the fieldwork experience. This plan should include specific objectives and enabling activities to be used by the student and fieldwork educator in order to achieve the desired competence.

The Fieldwork Educator must contact the Academic Fieldwork Coordinator when: 1) a student exhibits unsatisfactory behavior in a substantial number of tasks or 2) a student’s potential for achieving entry-level competence by the end of the affiliation is in question.

**DIRECTIONS FOR RATING STUDENT PERFORMANCE**

- There are 25 performance items.
- Every item must be scored, using the one to four point rating scale (see below).
- The rating scales should be carefully studied prior to using this evaluation. Definitions of the scales are given at the top of each page.
- Circle the number that corresponds to the description that best describes the student’s performance.
- The ratings for the Ethics and Safety items must be scored at 3 or above on the final evaluation for the student to pass the fieldwork experience. If the ratings are below 3, continue to complete the Fieldwork Performance Evaluation to provide feedback to the student on his/her performance.
- Record midterm and final ratings on the Performance Rating Summary Sheet.
- Compare overall midterm and final score to the scale below.

**OVERALL MIDTERM SCORE**

- Satisfactory Performance ............... 54 and above
- Unsatisfactory Performance ............... 53 and below

**OVERALL FINAL SCORE**

- Pass ...................................... 70 points and above
- No Pass .................................. 69 points and below

**RATING SCALE FOR STUDENT PERFORMANCE**

4 — Exceeds Standards: Performance is highly skilled and self-initiated. This rating is rarely given and would represent the top 5% of all the students you have supervised.

3 — Meets Standards: Performance is consistent with entry-level practice. This rating is infrequently given at midterm and is a strong rating at final.

2 — Needs Improvement: Performance is progressing but still needs improvement for entry-level practice. This is a realistic rating of performance at midterm and some ratings of 2 may be reasonable at the final.

1 — Unsatisfactory: Performance is below standards and requires development for entry-level practice. This rating is given when there is a concern about performance.
I. FUNDAMENTALS OF PRACTICE:

All items in this area must be scored at a #3 or above on the final evaluation in order to pass fieldwork.

1. Ethics: Adheres consistently to the American Occupational Therapy Association Code of Ethics (4) and site’s policies and procedures.
   - Midterm 1 2 3 4
   - Final 1 2 3 4

2. Safety: Adheres consistently to safety regulations. Anticipates potentially hazardous situations and takes steps to prevent accidents.
   - Midterm 1 2 3 4
   - Final 1 2 3 4

3. Safety: Uses sound judgment in regard to safety of self and others during all fieldwork-related activities.
   - Midterm 1 2 3 4
   - Final 1 2 3 4

II. BASIC TENETS OF OCCUPATIONAL THERAPY

4. Occupational Therapy Philosophy: Clearly communicates the values and beliefs of occupational therapy, highlighting the use of occupation to clients, families, significant others, and service providers.
   - Midterm 1 2 3 4
   - Final 1 2 3 4

5. Occupational Therapist/Occupational Therapy Assistant Roles: Communicates the roles of the occupational therapist and occupational therapy assistant to clients, families, significant others, and service providers.
   - Midterm 1 2 3 4
   - Final 1 2 3 4

6. Evidenced-based Practice: Makes informed practice decisions based on published research and relevant informational resources.
   - Midterm 1 2 3 4
   - Final 1 2 3 4

Comments on strengths and areas for improvement

- Final
RATING SCALE FOR STUDENT PERFORMANCE

4 — Exceeds Standards: Performance is highly skilled and self-initiated. This rating is rarely given and would represent the top 5% of all the students you have supervised.

3 — Meets Standards: Performance is consistent with entry-level practice. This rating is infrequently given at midterm and is a strong rating at final.

2 — Needs Improvement: Performance is progressing but still needs improvement for entry-level practice. This is a realistic rating of performance at midterm, and some ratings of 2 may be reasonable at the final.

1 — Unsatisfactory: Performance is below standards and requires development for entry-level practice. This rating is given when there is a concern about performance.

III. EVALUATION/SCREENING
(Includes daily evaluation of interventions)

7. Gathers Data: Under the supervision of and in cooperation with the occupational therapist and/or occupational therapy assistant, accurately gathers relevant information regarding a client’s occupations of self care, productivity, leisure, and the factors that support and hinder occupational performance.

Midterm 1 2 3 4
Final 1 2 3 4

8. Administers Assessments: Establishes service competency in assessment methods, including but not limited to interviews, observations, assessment tools, and chart reviews within the context of the service delivery setting.

Midterm 1 2 3 4
Final 1 2 3 4

9. Interprets: Assists with interpreting assessments in relation to the client’s performance and goals in collaboration with the occupational therapist.

Midterm 1 2 3 4
Final 1 2 3 4

10. Reports: Reports results accurately in a clear, concise manner that reflects the client’s status and goals.

Midterm 1 2 3 4
Final 1 2 3 4

11. Establish Goals: Develops client-centered and occupation-based goals in collaboration with the occupational therapist.

Midterm 1 2 3 4
Final 1 2 3 4

IV. INTERVENTION:

12. Plans Intervention: In collaboration with the occupational therapist, establishes methods, duration and frequency of interventions that are client-centered and occupation-based. Intervention plans reflect context of setting.

Midterm 1 2 3 4
Final 1 2 3 4

13. Selects Intervention: Selects and sequences relevant interventions that promote the client’s ability to engage in occupations.

Midterm 1 2 3 4
Final 1 2 3 4

14. Implements Intervention: Implements occupation-based interventions effectively in collaboration with clients, families, significant others, and service providers.

Midterm 1 2 3 4
Final 1 2 3 4
15. **Activity Analysis:** Grades activities to motivate and challenge clients in order to facilitate progress.

   - **Midterm:** 1 2 3 4
   - **Final:** 1 2 3 4

16. **Therapeutic Use of Self:** Effectively interacts with clients to facilitate accomplishment of established goals.

   - **Midterm:** 1 2 3 4
   - **Final:** 1 2 3 4

17. **Modifies Intervention Plan:** Monitors the client's status in order to update, change, or terminate the intervention plan in collaboration with the occupational therapist.

   - **Midterm:** 1 2 3 4
   - **Final:** 1 2 3 4

**Comments on strengths and areas for improvement**

- **Midterm**
- **Final**

---

**V. COMMUNICATION**

18. **Verbal/Nonverbal Communication:** Clearly and effectively communicates verbally and nonverbally with clients, families, significant others, colleagues, service providers, and the public.

   - **Midterm:** 1 2 3 4
   - **Final:** 1 2 3 4

19. **Written Communication:** Produces clear and accurate documentation according to site requirements. All writing is legible, using proper spelling, punctuation, and grammar.

   - **Midterm:** 1 2 3 4
   - **Final:** 1 2 3 4

**Comments on strengths and areas for improvement**

RATING SCALE FOR STUDENT PERFORMANCE

4 — Exceeds Standards: Performance is highly skilled and self-initiated.
This rating is rarely given and would represent the top 5% of all the
students you have supervised.

3 — Meets Standards: Performance is consistent with entry-level practice.
This rating is infrequently given at midterm and is a strong rating at
final.

2 — Needs improvement: Performance is progressing but still needs
improvement for entry-level practice. This is a realistic rating of
performance at midterm, and some ratings of 2 may be reasonable at
the final.

1 — Unsatisfactory: Performance is below standards and requires
development for entry-level practice. This rating is given when there is
a concern about performance.

VI. PROFESSIONAL BEHAVIORS

20. Self-Responsibility: Takes responsibility for attaining professional
competence by seeking out learning opportunities and interactions
with supervisor(s) and others.
Midterm 1 2 3 4
Final 1 2 3 4

Midterm 1 2 3 4
Final 1 2 3 4

22. Work Behaviors: Demonstrates consistent work behaviors includ­
ing initiative, preparedness, dependability, and work site mainte­
nance.
Midterm 1 2 3 4
Final 1 2 3 4

23. Time Management: Demonstrates effective time management.
Midterm 1 2 3 4
Final 1 2 3 4

24. Interpersonal Skills: Demonstrates positive interpersonal skills
including but not limited to cooperation, flexibility, tact, and
empathy.
Midterm 1 2 3 4
Final 1 2 3 4

25. Cultural Competence: Demonstrates respect for diversity factors
of others including but not limited to socio-cultural, socioeconomic,
spiritual, and lifestyle choices.
Midterm 1 2 3 4
Final 1 2 3 4

REFERENCES

GLOSSARY

Activity Analysis: "A way of thinking used to understand activities, the performance components to do them and the cultural meanings typically ascribed to them." (Neistadt and Crepeau, 1998; Willard and Spackman's Occupational Therapy, 9th edition, p. 135)

Code of Ethics: refer to www.aota.org/general/coe.asp

Collaborate: To work together with a mutual sharing of thoughts and ideas. (ACOTE Glossary)

Competency: adequate skills and abilities to practice as an entry level occupational therapist or occupational therapy assistant.

Evidence-based Practice: "conscientious, explicit and judicious use of current best evidence in making decisions about the care of individual patients. The practice of evidence-based [health care] means integrating individual clinical expertise with the best available external clinical evidence from systematic research". (Sackett and colleagues, Evidence-based medicine: How to practice and teach EBM, 1997, p.3) (from the Mary Law article "Evidence-Based Practice: What Can It Mean for ME"—found online at www.aota.org)

Occupation: Groups of activities and tasks of everyday life, named, organized and given value and meaning by individuals and a culture; occupation is everything people do to occupy themselves, including looking after themselves (self-care), enjoying life (leisure), and contributing to the social and economic fabric of their communities (productivity); the domain of concern and the therapeutic medium of occupational therapy. (Townsend, editor, 1997, Enabling Occupation: An Occupational Therapy Perspective, p.181)

Occupational Performance: The result of a dynamic, interwoven relationship between persons, environment and occupation over a person's lifespan; the ability to choose, organize, and satisfactorily perform meaningful occupations that are culturally defined and age appropriate for looking after oneself, enjoying life, and contributing to the social and economic fabric of a community. (Townsend, editor, 1997, Enabling Occupation: An Occupational Therapy Perspective, p.181)

Spiritual: (a context)—the fundamental orientation of a person's life: that which inspires and motivates that individual. (Occupational therapy practice framework: Domain and process. American Journal of Occupational Therapy, 56, 606-639.) (5)

Creating Congruence Between Identities as a Fieldwork Educator and a Practitioner

When we, the authors, first became fieldwork educators, we identified ourselves primarily as occupational therapy practitioners who, secondarily, "took" Level I and Level II fieldwork students. Identifying ourselves primarily as practitioners over educators shaped what we imagined we were supposed to do when we "took" students. We were supposed to share our expertise in our particular practice area; demonstrate how to perform certain procedures; and observe, assess, and give feedback as students applied the knowledge they received from their academic education. But the more students we took, the more we came to see that being practitioners did not fully prepare us for being educators. We found that we increasingly wanted to become as knowledgeable about how to design good learning experiences as we were about occupational therapy; thus, new professional identities as educators began to emerge. Assuming stronger identities as educators reshaped what we imagined we were supposed to do with students. We weren't necessarily supposed to make students competent in our skills, but rather create learning experiences that nurtured their skills, knowledge, and expertise.

Similar to our experience, Abreu (2006) described a portion of her career development as "a tale of two loves—clinician and educator" (p. 598). She created congruence between her two loves and discovered how each informed and changed how she performed the other. Peloquin (2006) also created congruence between her identities as an occupational therapy educator and a practitioner, stating "the best of my teaching has been like occupational therapy. And the best of occupational therapy [with clients] has felt like collaborative learning" (p. 239).

Most fieldwork educators wear at least two hats—the hat of being an practitioner and the hat of being a fieldwork educator. Sometimes, however, a fieldwork educator may naturally identify himself or herself more strongly as a practitioner than as an educator. Consequently, neither students nor fieldwork educators benefit as fully as they might from the student-educator relationship in the practice environment.

In this article, we propose that assuming a stronger identity as an educator can help fieldwork educators integrate multiple dimensions of the role and more fully engage students in deep personal and professional learning.

"Supervising" the Fieldwork Student: How and Who Fieldwork education has been described as "supervising students." Supervising is defined as "a critical watching and directing" (Merriam-Webster Online, n.d.). In occupational therapy, supervising students has involved directing them through increasingly more responsibility for clients over time. Fieldwork supervisors observe, assess, and give feedback based on the student's competence with clients and related duties, such as documentation, time management, and professional communication (Crist, 1986). Supervisors are also expected to understand and implement well-designed teaching and learning experiences (American Occupational Therapy Association [AOTA], 1997; American Occupational Therapy Foundation, 2004; Costa, 2004, 2007). Yet the role of "supervisor" typically is not associated with applying instructional design principles to create powerful learning experiences. Thus, framing the role as "supervisor" can occlude from view the important dimension of intentional, systematic learning design.

In addition, the key questions we ask about the role can occlude from view the importance of instructional design principles in planning the fieldwork experience. The question most commonly asked in becoming a fieldwork educator is, "How?" (Palmer, 1998). How do we effectively supervise students? What methods, techniques, and skills are considered effective in clinical supervision? (e.g., AOTA, 1997; Christie, Joyce, & Moeller, 1985; Costa, 2007; Herkt, 2005; Bott, 1995; Johnson, Haynes, & Oppermann, 2007; Kautzmann, 1990; Quilligan, 2007). Of course, how to effectively supervise students is a very important question. But if "how" is presented as the primary question, it can overshadow the equally important, "Who?" Who is the self that supervises students? If one's practitioner-self is the sole supervisor, then his or her knowledge and expertise in a particular practice area will be the central guiding force in the learning experience. If the educator-self and the practitioner-self are equally robust, then knowledge and expertise in instructional design will gain prominence.

Asking the "who" question (i.e., Who is the self that supervises students?) could help to address the disconnect that some supervisors experience between being a practitioner and being a fieldwork educator. Practitioners sometimes experience a disassociation between the roles, not because they lack skills in how to be a supervisor, but because they have not formed a sense of self as an educator who is fully integrated with a sense of self as a practitioner (Costa, 2007; Higgs & McMister, 2005). Consequently, they may not have integrated strong instructional design into their role as much as they have integrated strong supervision skills.
According to Fink (2003), instructional design involves a dynamic interaction among four elements: (a) knowledge of the subject matter, (b) interaction with students, (c) management and administration skills, and (d) skills in designing learning experiences (see Figure 1). The degree to which all four elements are done well determines the quality of the student's learning experience. However, the degree to which all four elements are done well can hinge on how a practitioner sees himself or herself—as practitioner, as educator, or as both (Fink, 2003). For example, therapists whose primary identity rests in being a practitioner may not have in view the element of designing intentional learning experiences. They may have in view knowledge of the subject matter (e.g., passing on knowledge and expertise), interaction with students (e.g., communicating clearly, giving feedback, observing, supporting), and management/administration skills (e.g., completing the fieldwork performance evaluation). From this view, which is focused on three of Fink's four elements, a learning experience is not well determined in terms of designing intentional learning experiences. 

When an identity as educator emerges, it provides "an important central figure in a self-narrative or life story that provides coherence and meaning for everyday events" (Christian, 1999, p. 585). In addition to being a practitioner, an educator begins to see more clearly and adopts more consciously the previously underappreciated element of designing learning experiences.

Applying Instructional Design Principles to Fieldwork Education

As an identity as educator emerges, the supervisor may reinterpret the fieldwork placement as a "course" taught in the context of the practice setting and apply course design principles when anticipating a student. The steps of good course design include many components typically found in a fieldwork experience; however, one key difference is the upfront, intentional deliberation and design of the learning goals, the learning activities to meet the learning goals, and the plan for assessment and feedback. 

Student learning goals go beyond the goals received from the academic program. The learning goals are site specific, building on the fieldwork educator's dreams for where this particular student will be at the end of this particular placement, given all the opportunities the setting offers, and the student's own dreams and learning styles. Table 1 on page 3 presents six areas of learning from which goals can be crafted. Deeper learning occurs when all six areas are covered (Fink, 2003). For example, a goal reflecting the human dimension in Table 1 might be as follows: "Student will demonstrate effective interview skills in order to establish the client's and family's occupational interests and priorities." A goal reflecting the Integration dimension in Table 1 might be as follows: "Student will demonstrate narrative, procedural, and pragmatic reasoning while performing assessment and interventions and concurrently interacting with clients and families."

The next step of selecting learning activities may seem redundant. Aren't the learning activities built into the everyday activities of the setting and based on the role of occupational therapy at the site? Yes, the setting provides opportunities for direct observation and real doing in an authentic practice context. A practitioner identity may lead one to focus on the current caseload and to assigning clients to the student that are believed to produce optimum learning. However, an educator identity expands that perspective somewhat. Educators intentionally will augment students' experiences with clients by asking them:

1. What information and data will you need to prepare for, or to process what happened in, experience X? The student decides and obtains the information through readings, talking to people, searching the Internet, and reviewing course materials.
2. What indirect experiences will help you to prepare for the real experience of X? The student decides and obtains the information through readings, simulations, case studies, and observations, which may help to prepare for a direct experience.
3. What do you anticipate will happen, or what do you think happened, during experience X? The student may verbally process anticipations or what happened. He or she also may write a 1-minute response on his or her anticipation or perception of the experience.
4. As a follow-up, what did you learn from experience X? How did the experience change what the student knows, how the student feels, what the student cares about, and the student's self-perception as an emerging occupational therapy practitioner?

The selected learning activities should be sequenced carefully and plugged into a weekly schedule (Fink, 2003). With time, the plan is individualized to the student's needs.

Fieldwork assessment strategies often include observing the student's performance, having the student complete a weekly
self-assessment on his or her progress, and conducting a weekly review of learning goals. The educator assesses learning by how the depth and breadth of the student's approach to clients grows with time. The educator's criteria for critical appraisal are based on how closely the student's performance resembles client-centered, evidenced-based, and occupation-centered practice rooted in current discourse in the profession.

Strengthening an Educator Identity

Identity is not a fixed state. Rather, individuals possess multiple identities that change over time through experiences and by how we ascribe meaning to those experiences. Identities can be developed through social engagement, emotional awareness, and a process of "selling" to actively tie together the roles of practitioner and educator (Christiansen, 1999; McAdams, 1996; Peloquin, 2006).

Get Involved With a Supportive Group

According to Christiansen (1999), "identity is an overarching concept that shapes and is shaped by our relationship with others" (p. 548). Thus, we gain an identity through identification with others in a social group. However, Abreu (2006) noted that there are at least two modes by which our social engagements can shape our identities. One mode is through those whom we consider to be mentors, and the second is through those whom we consider to be our "symbolic others" (p. 596). Mentors are those groups and individuals who reflect to us who we hope to become. We all remember the exceptional educator to whom we listened with captivated attention to every word, and followed every therapeutic footstep awe-inspired (Christiansen, 1999; Peloquin, 2006). Symbolic others are groups or individuals with whom we do not identify (Abreu, 2006). They teach us through negative example how we do not want to be. We remember acutely the fieldwork educator intent on intimidation and peer support can help to strengthen one's identity as educator.

Attend to Emotional Responses

Emerging identities also can be detected by paying careful attention to our internal responses as we go through experiences with students and clients. Whyte (2001) proposed that "paying close attention to an astonishing world and the way each of us is made differently and uniquely for that world" results in self-knowledge that can create coherence between one's self and one's work (as cited in Peloquin, 2006, p. 236). We learn from our flashes of joy, anger, exasperation, and elation—all of which will be part of the fabric of feeling rightly related to educating students. Journals, meditation, and mindfulness can be tools to help with attending to emotional responses.

Table 1. Taxonomy of Goal Areas To Promote Significant Learning

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
